A Sure Cure for "Loss of Voice."

Dr. John W. Corson, of Orange, N. J., communicates to the Medical Record, of January 1, a valuable paper on "Borax and the Nitrate of Potass, in the Loss of Voice from "Colds' in Public Speakers and Singers."

Dr. Corson says that some Voice from Colds in Profits Speaces have, at reck a drug store, with the many said Singers." Dr. Corson says that some mentioned object. She took the package home and put it on a shelf beside a small-remarkation with the New York Dispensary, at the suggestion of a non-professional friend engaged in teaching elecution, he was led to test the efficacy of boras, he was led to test the efficacy of boras, and the arsenic on the shelf became mixed in the many statements.

three special advantages. It is easily obtained, convenient to carry in the vest pocket, and perfectly harmless. Borax thus used, as one may readily prove, stimulates the secretion of saliva and makes the whole mouth and throat "water" protusely. Dr. Corson is careful not to claim too much for borax, and he chemarks that neither in chronic affections of the throat, nor in acute inflammation, nor in "tonsillitis," once established, has he found borax of any special efficacy as a curative.

The use of the other remedy above named, "Nitrate of Potass.," is thus introduced:

An early friend and patient of ours, since deceased, a New York dock-builder, much exposed to the weather, claimed to What is the "Credit Mobilier"?

This question continues to be asked, in have a secret remedy for "colds." But he was to generous to bury anything useful. At length he confessed that it consisted in covering up warmly in bed, drinking a glass of water, and sucking a piece of the nitrate of potass,—or "sailpetre," as he preferred to call it—the size of a gardenear or sailth the size of a gardenear or sailth the size of a gardenear or sittle larger, till it was slowly. vania Legislature, and organized under pea or a little larger, till it was slowly lissolved and swallowed. We think we notorious, is related in an affidavit of one dissolved and swallowed. We think we improved his prescription by sweetening of its members, Mr. Thomas C. Durant, the water, to cover the mawkish taste of of which the following is a brief summary:

We also increased der construction a "ring" was formed in-side the direction, embracing, as such a combination always does, the ahrewdest, most active, and least scrupulous of the Board, for the purpose of making large the dose, from gratifying personal exper-ience, to five grains. As a courtesy from concept to five grains. As a courtesy from our protession to clergymen and singers, we may suggest that they will find it very convenient, in travelling, to carry a lew divegrain powders of the nitrate of potass, prepared by the druggists for ready use. Like the borax, it is also easily obtained in every household, and, taken in the dose recommend bold, and, taken in the dose recommended, is quite harmless. With the help of
the extra clothing and the glass of water,
it excites for a whole night a gentle perspiration, and thus, if taken at the very
commencement "breaks up the cold." It
accomplishes this as do warm foot-baths,
with hot teas, or Turkish or Russian
baths, if used early, by opening those will. Directors, in the capacity of stockholders of the Credit Mobilier, the pretense being that the Credit Mobilier had the means to push the work vigorously forward, and would be better able to do so than any batis, if used early, by opening those mil-lions of pores of the skin which Erastus Williams counted through his microscope. As the aching, the weariness, and the headache of a severe cold tell us, the blood as highly polecy by would be better able to do so than any single individual. In pursuance to this conspiracy—for it was nothing else—the contract for the construction of a large portion of the road at fifty thousand dollars a mile was awarded and duly assigned to the "ring"—a price which, according to Mr. Durant's statement, was more than double the legitimate cost of the work. This, however, was not enough. By the votes of the conspirators many miles of the road which had already been constructed and accepted by the United States Government as complete, and which had nearly all been paid for by the Union Pacific Company, were included in blood is slightly poisoned by suppressed perspiration. And the simple lesson of cure is promptly to open these pores. We may add, that the efficacy of any of these remedies is much increased by putting can awarm shawl or great-coat, and throwing the arms about, and walking the floor rapidly till the hands and feet are in a perfect glow, before retiring to bed. Making the Best of Our Circum-Hearth and Home has an article on Union Pacific Company, were included in the contract at fifty thousand dollars a mile, and thus an enormous amount of money was taken, as it were, out of the pockets of the stockholders, without a "Paying the Piper" and notes what a a flood of misery the yearly bills bring upon the first few weeks of January-an

The shares of the Credit Mobilier were thus made at worth from eight to ten times their face value—that is to say, a single thousand dollar share was worth from eight to ten thousand dollars in cash. worth from eight to ten times their face seems to us to lie in facing the fact that, while most of us are and must remain comfortably poor, neither the daily beauty of life nor its social success depends on large expenditure. It is not our gowns are our cigars nor our pastry nor our partor furniture nor our parties that make us interesting. It is the freshness with which we see the old and sediously familiar facts of existence. It is the element of newness which we bring into jaded minds. HOME OFFICE-Petersburg, Va., ith Local Boards in all the cities of Virginia in the District of Columbia, and in West Va.

Life Policies are now generally conceded to be among the most certain and desirable of investments. This Company, managed on principles of strict economy, offers the lowest rates of premiums, consistent with safety, and lower, we believe, than any other Company doing business in the State. Its success is an established fact. All reserve from premiums, as a security to the policy holders, additional to the capital stock, is invested by the Local Boards, within that locality from which it is derived.

Being convinced by their knowledge of the integrity and pradence of the gentlemen who compose its Directory, and by a thorough examination of its plan of organization, that it is in every respect a reliable Company, the subscribed citizens of Wheeling, who have themselves subscribed to its stock, and organized as a Local Board, feel warranted in commending the enterprise to the favorable consideration of the people of the State:
